Products

confcaddie™

www.confcaddie.com

The traditional process of carrying a printed program guide at the conference is not a pleasant experience for attendees in this Mobile age, when everything is possible by touch of a button. Here comes ConfCaddie: the mobile app and solution that replaces the printed program guide; providing conference details attendees need, at the touch of an icon.

ConfCaddie is developed based on hands-on experience of attending and managing many events.
